

environmentally sound manner will help address high energy prices, strengthen our energy security, and protect manufacturing jobs. The bill also provides the producing States of Texas, Louisiana, Mississippi, and Alabama a share in the royalty revenues from OCS leases. I appreciate the commitment by the State of Louisiana to use revenues from these leases to restore coastal wetlands.

Statement on Congressional Passage of Legislation To Reauthorize the Ryan White CARE Act

December 9, 2006

In 1990, Congress passed the Ryan White Comprehensive AIDS Resources Emergency (CARE) Act to advance our domestic battle against HIV/AIDS. This landmark legislation has provided Americans in need with better access to medical care, antiretroviral treatments, and counseling and has helped them live longer lives. The act also supports HIV testing to prevent the further spread of this devastating disease.

Laura and I thank the House and Senate for reauthorizing the Ryan White CARE Act. This legislation focuses on life-saving and life-extending services and increased accountability and will provide more flexibility to the Secretary of Health and Human Services to direct funding to areas of greatest need. The Ryan White CARE Act demonstrates the compassionate and generous spirit of America, and I look forward to signing this important legislation into law.

Statement on Congressional Passage of Legislation To Authorize Permanent Trade Relations With Vietnam

December 9, 2006

I commend the Congress for its bipartisan support for my request to approve legislation authorizing the grant of permanent normal trade relations to Vietnam. PNTR marks a significant step forward in the process of nor-

malizing relations with Vietnam and will benefit both our nations. This designation will advance our trade and investment relations with Vietnam and ensure that the United States shares in the economic benefits generated by Vietnam's imminent membership in the World Trade Organization. Vietnam is demonstrating its strong commitment to continuing economic reforms, which will support political reform and respect for human rights. The American people welcome the remarkable transformation and economic progress in Vietnam, and we will continue to work together to strengthen our ties.

Statement on Congressional Passage of Fisheries Management Legislation

December 9, 2006

I applaud Congress for working in a bipartisan manner to pass a stronger Magnuson-Stevens Act. Our Nation is committed to maintaining our thriving commercial and recreational fishing communities. This bill embraces my priorities of ending overfishing and rebuilding our Nation's fish stocks through more effective, market-based management and tougher enforcement. This landmark legislation also provides stronger tools to achieve progress internationally to ensure healthy fish stocks, promote better management, and halt destructive fishing practices based on sound science.

Since my administration released the Ocean Action Plan in 2004, we have been making great strides in our efforts to make our oceans, coasts, and Great Lakes cleaner, healthier, and more productive. Enactment of this bill is one of the top priorities of the Ocean Action Plan and is another significant bipartisan environmental achievement.
